

**Description:**

The Upright Controlled Room Temperature Cabinets are purpose built for medical applications. These units feature a digital microprocessor temperature controller allowing for the precise temperature management necessary for medication storage at room temperature. A forced air directional refrigeration system provides superior temperature uniformity and recovery after door openings. A controlled temperature environment will ensure approved storage; preventing time wasted on unnecessary expense and product recalls. **These models are designed with cooling functionality only. They are NOT designed with a heating function to protect against temperatures below 68°F (20°C). Environmentally friendly, natural hydrocarbon (HC) refrigerants (not containing hydrofluorocarbons) vastly reduce global-warming potential (GWP) while meeting new EPA/SNAP mandates and UL, ASHRAE compliance guidelines**

Additional Product Images**Details**

- Four adjustable shelves (adjustable in ½" increments)
- Vaccine storage power cord warning label
- Forced draft air circulation
- LED interior lights are safety shielded and switch controlled
- Swivel Casters (3")
- Probe access port (?)
- White powder-coated steel exterior and interior
- Hydrocarbon, natural refrigerant (R290)
- One year parts and labor warranty, plus an additional four year compressor parts warranty
- **Energy Star Certified**

Specifications

- Exterior dimensions: Width: 26 7/8" Depth: 34 3/4" Height: 81 3/4" with casters; 78 1/4" without casters

- Cycle defrost
- 115V, 60 Hz, 3 Amps, 1/5 HP
- UL/C-UL listed
- Shipping weight: 250 lbs.

Controller

- Microprocessor temperature controller
- Digital temperature display
- Audible and visual high and low temperature alarms
- Remote alarm contacts
- Adjustable operating temperature range: 68°F to 77°F (20°C to 25°C)
- Keyed door locks
- Magnetic door gasket for positive seal
- 2 probes; 1 in air and 1 in sample bottle
- Calibrated using a NIST traceable device, certificate included
